Bruce Lazarus
OUR WORLD

for SATB chorus and piano

You and I

Share a single place

A private universe

Tiny point in space.

Complex world of water, stone, and air...

Necessary water, stone and air

Turning while we whirl around the sun...

Spinning as we whiz around the sun.

You and I

Share a biosphere

Terrestrial abode -

All we have is here.

Filled with life,

Filled up with strife - the human comedy.

Insulated,

Isolated,

Eons old - a fragile home called Earth.

You and I

Share a blue-green place

A private universe

Our own realm in space

Complex world of water, stone, and air...

Necessary water, stone and air

Turning while we whirl around the sun...

spinning as we whiz around the sun.

Spinning on our axis while we orbit 'round the sun.
